All finalists were independently verified by the professional services firm of EY (formerly Ernst & Young). EY reviewed and validated the gross revenue records as presented in the financial statements. EY is a global leader in assurance, tax, transaction, advisory services and strategic growth markets and employs more than 175,000 people globally across a range of disciplines.

To qualify for the ranking, companies must be owned by one or more Asian Americans (at least 51% ownership), among other eligibility criteria. Based on percentage revenue growth over three years, selection was determined through direct applications and nominations.
